

P1 Bedroom Door Set with Primary Override

To suit 35mm/44mm/54mm/60mm doors (confirm size when ordering)

Scan for Demo Videos

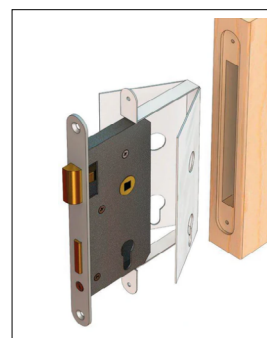

Application

Typically for bedroom doors where the deadbolt can be thrown from the inside of the room for privacy using the bowling ball turn.

The roller latch in the lock allows the door to be pushed and pulled open when unlocked.

Key entry from the outside using our Eclipse Ultra Patented Override Cylinder which disengages the turn on the inside, if it is being held.

A useful doorset for some ensembles where staff can control the room and gain entry providing the Eclipse Ultra Patented Override cylinder is used.
